TEACHERS ARE SAYING ABOUT THESE BOOKS:

“This has totally transformed my teaching. No more grammar worksheets!”
David Hobson

“Honestly, what you've written is about 5 times more advanced than what I had in my mind of what TPRS could be at its best!!”
Robin Ann Martin

“I need to understand the entire picture. Your books get into the nuts and bolts and from what I've read so far they explain all aspects of the topics from top to bottom. Exactly what I was looking for.”
Daniel Prosseda

“The Star Sequence is amazingly intuitive and allows new people to CI, those with the deer-in-the-headlights look on their faces, to chill out. The concept is solid. The Star Sequence itself is a fabulous support graphic.”
Alisa Shapiro-Rosenberg

“Your books provide an instructional routine that I can count on to get me through a class period, but with much lower stress levels than before...”
Lillian Smith
